PREVENTS THERMAL MANIPULATION ATTACKS.
Whilst we can't stop unwanted elements entering the lock, the exhaust ports stop it sticking around.

NO DRILLING
Our strongest anti-drill protection. Ever. Our most formidable defence yet with 16 hardened steel points of drill protection.

SNAP STOP
Stops lock snapping in its tracks. After a snapping attack the SnapStop is fired preventing access and manipulation of the core.

TWIST TRAP
Blocks devastating twist attacks. The rotator is instantly fired into the TwistTrap when the lock is twisted keeping the 'Always Locked' status.
